A Day in the Life of the Hudson River CLASSROOM

NEW workshops especially for our teacher participants!

Please join us for a curriculum workshop to prepare students for A Day in the Life of the Hudson River event. Designed for teachers and educators to integrate “Day in the Life” into existing classroom curriculum. Extend your river study beyond the field trip!

Workshops will provide hands on activities for your classroom to strengthen learning before and after the field trip event. Small group focus and discussion will address the varied student ages and abilities.

What is A Day in the Life?
Environmental education centers and school classes all along the Hudson River estuary collect scientific information and share it to create a picture of "A Day in the Life of the Hudson River." This annual program helps participants understand how their piece of the river fits into the larger Hudson estuary ecosystem.

I WOULD LIKE TO REGISTER FOR THE FOLLOWING CURRICULUM WORKSHOP(S):

___ July 6, 10:00 am-12:30 pm. Wednesday, Five Rivers Environmental Center, 56 Game Farm Road, Delmar, NY
___ August 18, 9:30 am-12 pm. Thursday, Norrie Point Environmental Center, 256 Norrie Point Way, Staatsburg, NY
___ August 25, 10:00 am-12:30 pm. Thursday, Kathryn W. Davis RiverWalk Center, 299 Palmer Avenue, Sleepy Hollow, NY
___ August 29, 12:30 pm-3:00 pm. Monday, Hudson River Park’s Pier 84 Classroom, NYC, NY

PLEASE fax or email the registration form to Rebecca Houser at rlhouser@gw.dec.state.ny.us. Fax: 845-255-3649.
