A.P. ENVIRONMENTAL SCIENCE TERMS & CONCEPTS TO RECALL:

Cost Benefit Analysis * Mass Transit * Light Rail * Bus Rapid Transit * Air Pollution *
External Costs (True Costs) * Ecological Footprint

Many of the choices your plan will make are choices NOT being made by communities and builders today. Consider why this may be.

For your plan considered a Cost Benefit Analysis and record your considerations below. Every decision has a cost/benefit. Remember costs are not always monetary, they can be a social trade offs, gathering the support of a specific group, faster development etc.

Selected Item	'Cost' for this Selection	Benefit of this Selection
