SO CLIVAR – *Gordon/Visbeck*

Other Issues - *Hellmer*

1215-1300 Business (elect Chair, membership changes, future meeting plans)

1300 Adjourn the Meeting

NOTE: This is a tentative agenda, and can be added to or modified at any time up until the iAnZone meeting by contacting Robin Muench at rdmuenc@attglobal.net or at rmuench@esr.org.

Persons named above have either requested a time slot or else represent a guess on my part as who might be willing to give the specified presentation. Changes or substitutions are welcome. I would very much like, though, to see that those countries having significant ocean programs in the Antarctic Zone are represented. If you see that no name has been listed, or if the specified person cannot attend, then please either appoint a different person who can attend or else provide Hartmut Hellmer or myself with some presentation materials (viewgraphs with explanatory text). We would much prefer to present your program ourselves rather than seeing it omitted from the program.

Please be thinking in terms of international coordination. The above agenda shows presentation of many results as coming from national programs because this is a convenient organizational tool. What we are really after is to provide a venue for synthesis of these new results, where appropriate, and for coordination of planned future programs.

Robin Muench
