

Hélène Delphine Carton

Education:

- June 2001 DEA (~MSc.), Geophysics, Louis Pasteur University of Strasbourg, France,
Mention Bien. Advisor: Dr Daniel Sauter
December 2001 Diploma, Ecole de Physique du Globe de Strasbourg, France, *Mention Bien*
December 2005 Ph.D., Marine Geophysics, Institut de Physique du Globe de Paris, France,
Mention Très honorable avec Félicitations du jury. Advisor: Dr Satish Singh

Appointments:

- July 2010 - present:* Lamont Assistant Research Professor, Lamont-Doherty Earth Observatory
June 2010: Doherty Associate Research Scientist, Lamont-Doherty Earth Observatory
June 2007 - May 2010: Post-doctoral Research Scientist, Lamont-Doherty Earth Observatory
January 2006 - June 2007: Post-doctoral researcher, IPG Paris, France
September 2004 - August 2005: ATER (part-time teaching assistant), IPG Paris, France
January 2002 - August 2004: Cambridge/IPG Paris PhD studentship

Field of interest: Mid-ocean ridge processes, structure and evolution of the oceanic crust, subduction zone processes, submarine strike-slip fault systems -- investigated through active source marine seismic studies. Also airgun source modeling and underwater sound propagation.

LDEO community activities & committee service:

Since July 2011, Chief Scientist for the Office of Marine Operation. Activities include modeling for marine mammal mitigation, document preparation and review, advice to PIs for survey planning.

Funded proposals:

- Trehu, A., Abers, G., Carton, H.: "Collaborative Research: Imaging the Cascadia subduction zone: a ship-to-shore opportunity", EAR 11-47622, \$333,212, 05/01/2012-04/30/2014.
Carbotte, S., Carton, H., Nedimovic, M., Canales, J.P.: "Collaborative research: Evolution and hydration of the Juan de Fuca crust and uppermost mantle: A plate-scale seismic investigation from ridge to trench", OCE 10-29411, \$823,085, 03/01/2012-02/28/2015.
Cochran, J., Shillington, D., and Carton, H.: "A training course in the processing and interpretation of marine geophysical data for officers of the Geological Survey of India", \$336,460 funded by Wartsila ship design Norway (project duration: 08-12/2011).
Carton, H., and Carbotte, S.M: "RAPID: Deep investigation of Sumatran subduction zone seismic gap", OCE 09-38221 (ARRA), \$74,527, 06/01/2009-05/31/2011.

Seagoing experience:

- 2012 Co-chief scientist on Cruise OC1206A aboard R/V *Oceanus*, part of the two-ship *Ridge2Trench* experiment across the Juan de Fuca plate and Cascadia subduction zone; OBS deployment/recovaries and CTD work.
2011 Chief scientist for JMS inspection onboard R/V *Marcus G. Langseth*, in and out of San Diego

2009	<i>TIDES</i> survey onboard M/V <i>Geowave Champion</i> of CGGVeritas - MCS (multi-streamer and long-offset) study of the Sumatran subduction zone over locked (off Padang) and aseismic segments, also incoming plate and forearc basin
2008	January: Shakedown cruise for 3D MCS onboard R/V <i>Marcus G. Langseth</i> , Gulf of Mexico; July-August: <i>MGL0812</i> cruise onboard R/V <i>Marcus G. Langseth</i> - 3D MCS study of the magmatic-hydrothermal system at the 9°50'N Integrated Study Site on the East Pacific Rise
2006	“Tsunami Survey” onboard M/V <i>Geco Searcher</i> - MCS study of the northern Sumatra subduction and incoming plate in the 2004 earthquake epicentral area
2005	<i>SISMOMAR</i> cruise onboard R/V <i>L'Atalante</i> - 3D MCS reflection box over the Lucky Strike volcano at 37°N on the Mid-Atlantic Ridge
2004	<i>TESTOBS</i> cruise onboard R/V <i>Le Suroît</i> - First deployment of the French INSU pool of ocean bottom seismometers, Mediterranean (Ligurian) Sea
2003	<i>SHALIMAR</i> cruise onboard R/V <i>Le Suroît</i> - Active tectonics offshore Lebanon using high-resolution bathymetry, single-channel and high-resolution seismics

Teaching experience:

2011: Co-taught (50%, with D. Shillington) an eight-week training course in marine seismology to a group of 10 scientists of the Geological Survey of India.
 2004-2005: Taught labs in signal processing and seismic data analysis for first year Master students.

Students advised, PhD examinations, visiting fellowships:

2008-present: Provided informal input to Milena Marjanovic (defended February 2013) and Shuoshuo Han for their PhD work on the East Pacific Rise project
 2012-present: PhD committee of Helen Janiszewski, student working on the Cascadia onshore/offshore project
 Examiner at PhD defenses of IPG Paris PhD candidates Nugroho Hananto (12/2011) and Dibakar Ghosal (03/2013)
 2012/2013: Visiting Scientist, three months, IPG Paris

Publications by theme: * indicates graduate student first author

Mid-ocean ridges

In preparation:
