

New Jersey Wastewater Infrastructure , Industrial Development, and New York Harbor Geochemistry: Early and Mid 20th Century

Todd Nelson, Steven Chillrud, James Ross: Lamont-Doherty Earth Observatory, Columbia University

- What is the environmental legacy of NY and Metropolitan NJ's 20th Century growth?
- How do policy and infrastructure adapt to industrial effluent and population booms?
- Can urban, political, and economic history be told through an environmental geochemical narrative?

All will be revealed...
