

Proposed Climate Center Visitor: Professor In Sik Kang

Kushnir, Yochanan
Sobel, Adam
Cane, Mark
Seager, Richard

Professor Kang of Seoul National University will spend a ten months sabbatical at Lamont. During his stay he will perform collaborative research with the Lamont Climate Modeling and Diagnostics Group and with Drs. Soble and Polvani at APAM. The work will center on the study of climate predictability on interannual to decadal time scales and the use of climate models to advance climate prediction. During his stay professor Kang will interact with students at DEES and APAM and will deliver seminars sponsored by the Climate Center.
