

Hudson River Snapshot Day '08

This is my Snapshot Day Journal Anthony!

- The sea plants look like lettuce
- The sea plants' colors are yellow and green
- The sea plant has a Y-shape
- The sea plant smells like fish
- The sea plant has a red color like tree branches
- The sea plant sticks to the rocks when it's wet
- The sea plant looks like leaves
- I see poles stuck to rocks
- I notice that there are bottles in the water and the waves moving wherever they want
- I saw a very big turtle, people panicked and we were about to catch it but Ms. K and Mr. C said "no."

This is my Snapshot Day Journal Danielle and Thalia!

- The seaweed are wet
- We found a price gun
- The closer you are to the rocks the deeper it is
- There are lots of big rocks in the water
- I looked at a rock and saw a piece of burned seaweed
- I noticed with the binoculars that there were some ducks in the water
- We noticed that in some parts there are dry rocks
- I found a plant with a shell on it

This is my Snapshot Day Journal Brittany and Amber!

- In the water we see clumps and families of seaweed
- We see rust and seaweed and dried up seaweed

This is my Snapshot Day Journal Yessenia and Mariana!

- I see seaweed on the rocks
- Yellow, brown, green covering a lot of rocks
- The seaweed is wet
- We see yellow and green water
- We see leaves that are yellow, brown, green
